2. Write tables from 2 to 10.
3. Write backward counting from 100 to 1.

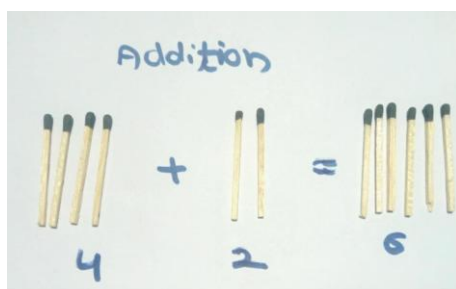

## Project

Make a flower from papers, in the center of the flower, write any number (like 5 or 8).

On each petal, write an addition or subtraction equation that gives the center number as the answer.

Use different colors and be as creative as you like.

Take some matchsticks and paste them on a sheet of paper in two separate groups. Below each group, write the number of matchsticks used. Then, add the two numbers and write the total below them.

Repeat this process for five different examples of your own. Each example should show a different combination of matchsticks

**SUBJECT: English**
